

# Infinitum

## PowerCore Motors

The Path to  
Automation

- **Powerful intelligence**
- **Optimized efficiency**
- **Reduced energy Consumption**

Infinitum motors are a key part of Matrix's **Path to Automation.** Contact Matrix to learn why we are ideally suited to be your partner in technology development.

The future of motors for mining equipment is here. Power, intelligence and controls all in one compact motor.

Matrix invites you to rethink your mining operation's mobile equipment and infrastructure motors. Motor technology has not changed significantly since the 1900s, until now. The Infinitum Aircore EC motor's new, innovative design delivers:

- The same power in a 50% smaller package
- Lighter weight and reduced energy consumption
- Continuous data monitoring & reporting for optimal performance
- Sustainable solution for operations with an environmental focus
